

Download To Do List Printable

Us crafters can always use a cute crafty to do list printable.

This cute printable can be resized to be printed smaller or larger and right now it is 8.5×11 US Letter size, however it does have a bleed edge already inputted. I store them in my folder, when I have items I need to get done or want to do, if need to order products or get products together and if I have any ideas worth saving, then I can always go back and browse through them if I get stuck for new ideas, nothings more fun than revamping an old idea to be new and fresh.

Enjoy ☺

These are free for you to print or d/l the pdf, but please do not repost them without my permission.

Just click on the logos at the bottom of the page to print or download.
