If you are pinching Pennie's, remember, they have great sale items regularly as well... Cherry On Top is one of my very favorite places to browse and shop at.

Amazon

Amazon, who doesn't shop here? Is probably the real question.

I buy a lot of embellishments here from ribbon, lace, twine, wooden shapes, metal charms etc, and a lot of my storage comes from here. If I cannot find my art glitter glue at my go-to stores I do take the risk and order this from Amazon. The nice thing I guess is, if you can't find it at one of your craft stores, Amazon probably sells it, just remember they can at times have other companies selling through Amazon, particularly crafting company knock offs, so be very wary if you buy dies, stamps and things of that nature.
